Re: Application for a Chapter 313 Value Limitation Agreement between the Texas City Independent School District and Sandpiper Chemicals, LLC

First Year of Qualifying Time Period – 2026 First Year of Limitation – 2028

Dear Local Government Assistance and Economic Analysis Division:

The Texas City Independent School District Board of Trustees approved the enclosed Application for Appraised Value Limitation on Qualified Property at a duly called meeting held on April 26, 2022. The Application was determined to be complete on May 12, 2022.

A copy is being provided to the Galveston County Appraisal District by copy of this correspondence. The Board of Trustees believes this project will be beneficial to the District and looks forward to your review and certification of this Application.

Thanks so much for your kind attention to this matter.

Respectfully submitted,

Sara Hardner Leon

Texas Comptroller of Public Accounts

Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Texas Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- · provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the completed application to the Comptroller, separating each section of the documents. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, and has determined that all assertions of confidentiality are appropriate, the Comptroller will publish all submitted non-confidential application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller's rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project and issue a certificate for a limitation on appraised value to the school board regarding the application by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete by the Comptroller), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Data Analysis and Transparency Form 50-296-A

اد	ECTION 14: wage and employment information	
1	What is the number of new qualifying jobs you are committing to create?	25
		0
2.	What is the number of new non-qualifying jobs you are estimating you will create? (See TAC 9.1051(14))	<u> </u>
3.	Do you intend to request that the governing body waive the minimum new qualifying job creation requirement, as provided under Tax Code §313.025(f-1)?	Yes 🗸 No
	3a. If yes, attach evidence of industry standard in Tab 12 documenting that the new qualifying job creation requirement of employees necessary for the operation, according to industry standards.	above exceeds the number
4.	Attach in Tab 13 the four most recent quarters of data for each wage calculation below, including documentation from the To Commission website. The final actual statutory minimum annual wage requirement for the applicant for each qualifying job from this estimate — will be based on information available at the time of the application review start date (date of a comple §9.1051(21) and (22). Note : If a more recent quarter of information becomes available before the application is deemed conformation will be required.	— which may differ slightly eted application). See TAC
	a. Non-qualified job wages - average weekly wage for all jobs (all industries) in the county is	\$ 1,043.75
	b. Qualifying job wage minimum option §313.021(5)(A) -110% of the average weekly wage for manufacturing jobs in the county is	\$ 2,483.80
	c. Qualifying job wage minimum option §313.021(5)(B) -110% of the average weekly wage for manufacturing jobs in the region is	\$ 1,312.60
5.	Which Tax Code section are you using to estimate the qualifying job wage standard required for this project?	A) or 3 §313.021(5)(B)
ŝ.	What is the minimum required annual wage for each qualifying job based on the qualified property?	\$ 68,255.00
7.	What is the annual wage you are committing to pay for each of the new qualifying jobs you create on the qualified property?	\$ 68,255.00
3.	Will the qualifying jobs meet all minimum requirements set out in Tax Code §313.021(3)?	Yes No
9.	Do you intend to satisfy the minimum qualifying job requirement through a determination of cumulative economic benefits to the state as provided by §313.021(3)(F)?	Yes 🗸 No
	9a. If yes, attach in Tab 13 supporting documentation from the TWC, pursuant to §313.021(3)(F).	
10.	. Do you intend to rely on the project being part of a single unified project, as allowed in §313.024(d-2), in meeting the qualifying job requirements?	Yes 🗸 No
	10a. If yes, attach in Tab 6 supporting documentation including a list of qualifying jobs in the other school district(s).	

SECTION 15: Economic Impact

- 1. Complete and attach Schedules A1, A2, B, and C in **Tab 14**. **Note**: Excel spreadsheet versions of schedules are available for download and printing at URL listed below.
- 2. Attach an Economic Impact Analysis, if supplied by an entity other than the Comptroller's office, in Tab 15. (not required)
- 3. If there are any other payments made in the state or economic information that you believe should be included in the economic analysis, attach a separate schedule showing the amount for each year affected, including an explanation, in **Tab 15**.

Proof of Payment of Application Fee

Please find on the attached page, copy of the check for the \$75,000 application fee to Texas City Independent School District.

Proof of payment of filing fee received by the Comptroller of Public Accounts per TAC Rule §9.1054 (b)(5)

(Page Inserted by Office of Texas Comptroller of Public Accounts)

<u>Documentation of Combined Group membership under Texas Tax Code 171.0001(7), history of tax</u>
<u>default, delinquencies and/or material litigation (if applicable)</u>

<u>Detailed Description of the Project</u>

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Sandpiper Chemicals, LLC ("Sandpiper") is requesting an appraised value limitation from Texas City Independent School District (ISD) for a proposed natural gas-to-methanol manufacturing facility in Galveston County (the "Project"). This proposed Texas City ISD Project will be constructed within a Reinvestment Zone that will be created by Texas City ISD prior to execution of a Value Limitation Agreement. A map showing the location of the project is included in TAB 11.

Sandpiper's current design and construction of this natural gas-to-methanol manufacturing facility would be located on land leased from Eastman Chemicals at the Bay Street site. Once operating the facility's production is estimated to be at 3,000 MT/day. Feedstock (natural gas) for the facility would be delivered via a yet to be constructed third party pipeline and the finished goods (methanol) will supply the markets along the gulf coast and abroad via truck, rail and ship. Methanol is a chemical building block used to produce formaldehyde, acetic acid, and a variety of other chemical intermediates.

Construction would be anticipated to begin in early 2025 with operations commencing by year end 2027.

Below is a list of the major new equipment comprising this plant as follows:

- Separators
- Columns
- Drums
- Process Vessels
- Auto thermal reformer
- Methanol reactor
- Steam drums
- Motors
- Exchangers
- Preheaters
- Heaters
- Superheaters

- Blowers and associated motors
- Absorbers
- Saturators
- Boilers
- Compressors
- Pumps and associated motors
- Filters
- Flare
- Scrubbers
- Water Deaerators
- Process Tanks
- Electrical Switchgear and main electrical components
- Electrical Substation
- Transformers
- Power Distribution Center
- Instrumentation equipment
- Control Equipment & Room
- Loading and unloading equipment and road works

Also included in this application are all of the associated concrete foundations, new pipe supports, new intra-plant piping, intra-plant conduit and connections, control loops, safety systems, fire water protection, insulation, pollution control equipment and utilities necessary to safely operate the new equipment.

<u>Documentation to assist in determining if limitation is a determining factor.</u>

As a globally experienced project developer and investor, Energy Allied International ("EAI" or "Developer"), headquartered in Houston, TX is strategically positioned to merge the technological and financial expertise of the western hemisphere with the infinite development potential of the United States and international locations. Established in 1975 as Onshore and Offshore Oil Services of California, EAI has evolved into an international project development firm with a proven track record for successfully launching chemicals, petrochemicals, energy, refining and infrastructure projects worldwide. EAI has successfully engineered and constructed facilities from the United States, South America, Africa, Europe and Asia. Sandpiper Chemical, LLC is one such proposed project that EAI is looking to develop.

The Sandpiper Project is still in an evaluation stage; only very preliminary development activities have begun. No engineering, procurement or construction contracts have been negotiated or signed to support the Project. No regulatory permit applications have been obtained. No public announcements of a definitive intent to construct the Project have been made. Only agreements pertaining to preliminary design and engineering work and the development of other technical studies and estimates have been entered into which is necessary for purposes of determining whether the Project is technically viable and can be cost-competitive in the global marketplace.

In summary, the ultimate determination for EAI to deploy capital investment in a particular country or state depends on the project economics. In the case of the investment on this proposed project in Texas, the decision will be based on a number of commercial and financial considerations, including the ability to obtain relief regarding local property taxes. Obtaining the Chapter 313 value limitation is a necessary part of the economic analysis and a determining factor for investment in Texas. The domestic and global industrial gas market is very competitive. Without the Chapter 313 value limitation, siting the project in Texas is less attractive. In the current capital constrained environment, the economics of each project are challenged against each other and only the best will have a chance to happen.

Set forth below is additional information in response to the questions in Section 8 of the Application.

- 1. Does the applicant currently own the land on which the proposed project will occur? No.
- 2. Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project? Yes. Agreements pertaining to preliminary design and engineering work and the development of other technical studies and estimates have been entered; this

work is necessary for purposes of determining whether the Project is technically viable and can be cost-competitive in the global marketplace.

- 3. Does the applicant have current business activities at the location where the proposed project will occur? There are no current business activities occurring at the location where the proposed project will occur.
- 4. Has the applicant made public statements in SEC filings or other documents regarding its intentions regarding the proposed project location?

 No.
- 5. Has the applicant received any local or state permits for activities on the proposed project site?
 No.
- 6. Has the applicant received commitments for state or local incentives for activities at the proposed project site?
 No.
- 7. Is the applicant evaluating other locations not in Texas for the proposed project?

 Yes, including elsewhere on the U.S. Gulf Coast, or at affiliate entity ongoing operations in Asia, North Africa, Middle East or Europe. The Developer continuously evaluates long-term investment opportunities. These evaluations weighs a number of factors, including return on investment which is directly impacted by the cost of operations. A local's property tax burden represents a significant amount of operational cost. As the Developer weighs these factors in evaluating a project's viability, economic incentives such as the Chapter 313 will directly impact the economics of the Project. Without this incentive the Project will be less competitive with developing projects in other locales and will be a determining factor in the final investment decision.
- 8. Has the applicant provided capital investment or return on investment information for the proposed project in comparison with alternative investment opportunities?

 No.
- 9. Has the applicant provided information related to the applicant's inputs, transportation, and market for the proposed project?
 No.

10. Are you submitting information to assist in the determinations as to whether the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in Texas?

No.

Description of how project is located in more than one district, including list of percentage in each district and, if determined to be a single unified project, documentation from the Office of the Governor (if applicable)

Galveston County	100%	\$0.41494
County Road & Flood	100%	\$0.00956
College of the Mainland	100%	\$0.26770
City of Texas City	100%	\$0.49000
Texas City ISD	100%	\$1.35130

Description of Qualified Investment

Below is a list of the new major equipment that will be considered Qualified Investment

- Separators
- Columns
- Drums
- Process Vessels
- Auto thermal reformer
- Methanol reactor
- Steam drums
- Motors
- Exchangers
- Preheaters
- Heaters
- Superheaters
- Blowers and associated motors

Data published: August 2021.

Data published annually, next update will likely be July 31, 2022

Annual Wage Figure assumes a 40-hour work week.

Note: Data is not supported by the Bureau of Labor Statistics (BLS).

Wage data is produced from Texas Occupational Employment and Wage Statistics (OEWS) data, and is not to be compared to BLS estimates. Data intended only for use implementing Chapter 313, Texas Tax Code.

Schedules A1, A2, B and C completed and signed Economic Impact (if applicable)

Total Investment through Qualifying Time Period [ENTER this row in Schedule AZ			ow in Schedule A2]	805,026,500	0	0	0	805,026,500
					En	ter amounts from TOTAL row above in Schedule	A2	
Total Qualified Investment (sum of green cells)				515,216,960				

For All Columns: List amount invested each year, not cumulative totals.

Column A: This represents the total dollar amount of planned investment in tangible personal property. Only include estimates of investment for "replacement" property is specifically described in the application.

Only tangible personal property that is specifically described in the application can become qualified property.

Column B: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings.

Column C: Dollar value of other investment that may affect economic impact and total value. Examples of other investment that will not become qualified property include investment meeting the definition of 313.021(1) but not creating a new improvement as defined by TAC 9.1051. This is proposed property that functionally replaces existing property; is used to maintain, refurbish, renovate, modify or upgrade existing property; or is affixed to existing property—described in SECTION 13, question #5 of the application.

Column D: Dollar value of other investment that may affect economic impact and total value. Examples of other investment that may result in qualified property are land or professional services.

Total Investment: Add together each cell in a column and enter the sum in the blue total investment row. Enter the data from this row into the first row in Schedule A2.

Qualified Investment: For the green qualified investment cell, enter the sum of all the green-shaded cells.

- * All investments made through the qualifying time period are captured and totaled on Schedule A1 [blue box] and incorporated into this schedule in the first row.
- ** Only investment made during deferrals of the start of the limitation (after the end of qualifying time period but before the start of the Value Limitation Period) should be included in the "year prior to start of value limitation period" row(s). If the limitation starts at the end of the qualifying time period or the qualifying time period overlaps the limitation, no investment should be included on this line.
- *** If your qualifying time period will overlap your value limitation period, do not also include investment made during the qualifying time period in years 1 and/or 2 of the value limitation period, depending on the overlap. Only include investments/years that were not captured on Schedule A1.
- For All Columns: List amount invested each year, not cumulative totals. Only include investments in the remaining rows of Schedule A2 that were not captured on Schedule A1.
- Column A: This represents the total dollar amount of planned investment in tangible personal property. Only include estimates of investment for "replacement" property if the property is specifically described in the application.
 - Only tangible personal property that is specifically described in the application can become qualified property.
- Column B: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings.
- Column C: Dollar value of other investment that may affect economic impact and total value. Examples of other investment that will not become qualified property include investment meeting the definition of 313.021(1) but not creating a new improvement as defined by TAC 9.1051. This is proposed property that functionally replaces existing property; is used to maintain, refurbish, renovate, modify or upgrade existing property; or is affixed to existing property—described in SECTION 13, question #5 of the application.
- Column D: Dollar value of other investment that may affect economic impact and total value. Examples of other investment that may result in qualified property are land or professional services.

Re: Reinvestment Zone for Application for a Chapter 313 Value Limitation Agreement between the Texas City Independent School District and Sandpiper Chemicals, LLC

Dear Local Government Assistance and Economic Analysis Division:

The Texas City Independent School District Board of Trustees accepted an Application for Appraised Value Limitation on Qualified Property at a duly called meeting held on April 26, 2022. The District intends to create the "Sandpiper Chemicals Reinvestment Zone" for the portion of the Sandpiper Chemicals, LLC project that is located within the boundaries of Texas City ISD. The Reinvestment Zone will be created before the District approves an Agreement for Value Limitation between the District and Sandpiper Chemicals, LLC.

When the reinvestment zone is created, the final board resolution, reinvestment zone legal description, and maps will be provided to your office.

Thank you for your attention to this matter.

Sincerely,

Dr. Melissa Duarte

Superintendent of Schools
